

Woodpeckers Class Newsletter Module 2

Central Idea	Environment impacts settlements and culture.
Lines of Inquiry	Change: An inquiry into how the environment has influenced how British society changed over time. Causation: An inquiry into how geography, climate and natural resources influences where people choose to settle. Function: An inquiry into how people use and adapt their environment.
Approaches to Learning	Self-management skills Social skills Thinking Skills
Learner Profile Attributes	Principled Balanced Reflective
Core Texts	The Boy with the Bronze Axe

In Module 2, Woodpeckers will be moving on to a deeper inquiry into the Iron and Bronze age periods of History, particularly looking at how society and land use changed as farming and villages developed. This will link with of Geographical skills of looking at land use and why settlements are built where they are both in The United Kingdom and Europe.

In PSHE we will be discussing families, friendships and people we trust and in Religion and World Views we will be thinking about another big question of “Where do our morals come from?”
Our computing will be introducing the early components of computer programming using Scratch (Which children can also access from home as a free website).
Finally in our science, we will be learning about light, what it is and how it is produced.

We also have a trip to Dover Museum planned where we will be learning more about the Bronze Age and many fabulous Christmas activities.
